

Aqua Lung Passport BCD

The Passport BCD is a travel friendly BCD with features such as light-weight materials, packability, and integrated rinse bag, it boasts a fresh new look and a new backpack.

FEATURES

- Lightweight materials allow the Passport to fold into a compact package ideal for travelling, 25% - 30% lighter than other BCD's in its class.
- Integrated, mesh carry bag folds up behind the backpad to provide lumbar support.
- Patented 'Quickdraw' integrated weight release system holds up to 9kg.
- New backpack with patented integrated traction pad
- Right shoulder dump.
- An optional lower right side pull dump may be added.
- The hook and loop waist band is adjustable and removable.
- 2 large, zippered utility pockets for storage.
- 3 utility D-rings offer plenty of mounting options.

Aqua Lung Libra BCD

The women's Libra BCD is a weight integrated, rear inflation BCD from Aqua Lung designed specifically for women. The Aqua Lung Libra BC in feminine pink includes the SureLock weight release system, is low profile to decrease drag in the water and provide stability and has a rolled neck collar for comfort. The Libra differs from the Balance BCD as it has a smaller torso length and contoured shoulders for a compact fit.

- SureLock II mechanical weight release system
- Low profile flat valves
- Stainless steel triloaders
- Shoulder swivel buckles
- Air cell surrounds backpack so air can transfer from side to side for stability
- Self-adjusting lumbar support system
- 2 non-releasable rear weight pocket with buckle locks (5lbs/2kgs ea)
- Rolled neck collar
- 3 stainless steel angled D-ring attachment points
- Attachment grommets for a Deep See knife. Knife not included
- Over-moulded carrying handle
- Contoured shoulders
- Removable chest strap
- Smaller torso length
