

Aqua Lung Balance BCD

The Balance BCD is a rear inflating BC which provides increased freedom of movement and a lower profile for decreased drag in the water. The Aqua Lung Balance BC includes the Sure Lock weight release system and non-releasable weight pouches can hold a combined total of 4.5kg. The harness system and rear bladder provides a triangular load distribution which will relieve backpack pressure and will be more comfortable in and out of the water.

- Exclusive Sure Lock mechanical weight release system.
- Non-releasable rear weight pouches (total of 10 lbs/4.5 kg of non-releasable weight)
- Newly redesigned fold down pocket
- Swivel buckles at shoulder strap
- New right shoulder pull dump
- New over moulded carrying handle
- Three bent stainless steel D-rings
- Large contour backpack helps stabilize even the largest tanks
- Patented Tank Traction System (TTS) ensures the tank is firmly attached to the BC
- Rolled neoprene around the collar for added diver comfort
- Adjustable Air-Lock Waistband Buckle for easy quick adjustments
- Lower right side pull dump allows for easy dumping of air if you prefer head first descents or when you are in the swimming position
- Multiple accessory attachment grommets
- Accessory attachment grommets allow for quick attachment of a Deep See knife directly to the BC. Knife not included.

Aqua Lung Pearl i3 BCD

The Pearl i3 is best ladies BC ever built by Aqua Lung. It features an all-new air cell powered by Aqua Lung's revolutionary i3 technology. The hybrid air cell combines a jacket style with a back inflation unit that completely surrounds the backpack. The front lobes are sleeker and low profile. The Pearl i3 retains Aqua Lung's most notable BC features such as the integrated sports bra and SureLock™ weight system.

- Integrated i3 controller for easier, single touch control for both inflation and deflation
- Multiple dump features allows upper and lower dumps to activate simultaneously when depressing the i3 lever
- Flat e-valves reduce drag and keep the BC streamlined
- The one-way valves incorporated into the flat e-valves prevent water from back flushing into the BC
- A clever "Octo-pocket" (patent pending) can be found on either side of the jacket.
- Four stainless steel D-rings provide attachment options
- A small pocket on the lower left lobe allows the installation of a retractor (sold separately)
- Knife mounting grommets allow you to attach any one of the fine Deep See knives
- A padded, rolled collar provides comfort around the neck
- A unique Multiset™ adjustable waistband allows up to 6" of adjustment
- An over-molded carrying handle allows for convenient transporting
